

# Federal Tax Credit Information for Energy Efficiency and Renewable Energy Measures

***\*Possible to receive \$4,000 towards Home Energy Improvements***

## Energy Efficiency Measures

Tax credits are available at 30% of the cost, up to \$1,500, in 2009 & 2010 (for existing homes only) for:

- Windows and Doors
- Insulation
- Roofs (Metal and Asphalt)
- HVAC
- Water Heaters (non-solar)
- Biomass Stoves

Energy Efficiency measures must be “placed in service” between January 1, 2009 and December 31, 2010.

## Renewable Energy Measures

\*Tax credits are available at 30% of the cost, with no upper limit through 2016 (for existing homes & new construction) for:

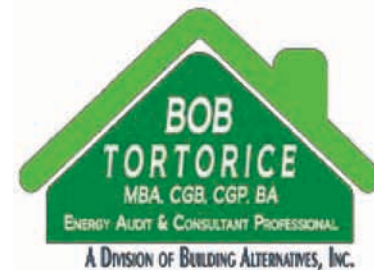

- Geothermal Heat Pumps
- Solar Panels\*
- Solar Water Heaters
- Small Wind Energy Systems
- Fuel Cells

\*Renewable Energy measures must be “placed in service” by December 31, 2016.

***\*Visit [www.nhsaves.com](http://www.nhsaves.com), follow instructions & request Bob Tortorice, Building Alternatives, Inc. Energy Auditor***

*\* May also be eligible for State of New Hampshire rebate (s).*

Visit [www.puc.state.nh.us](http://www.puc.state.nh.us), for up to date tax & rebate programs, select Sustainable Energy, and click on Renewable Energy Rebates.
